

TECHNICAL DATA SHEET

START

DESCRIPTION

Spray Fluid formulated to facilitate cold starting and to improve engine performance for use in all small 2 and 4 stroke engines. Helps combustion engines to start and is effective even at very low temperatures. Preserves the battery and is economic to use

APPLICATIONS

For use in all 2-stroke and 4-stroke gasoline and diesel engines in cars, trucks, buses, motorcycles, boats, construction machinery, tractors, lawnmowers, motor saws, etc.

BENEFITS

- ✓ Facilitates starting at low temperatures
- ✓ Prevents the battery wear
- ✓ Year-round use
- ✓ Allows engine efficiency

USE DIRECTION

Spray directly into the air filter or the air intake and start immediately. On gasoline engines, only press the accelerator gently; on diesel engines, start with full throttle without preglowing. Start the engine immediately after application.

Precautions: Do not spray for more than 3-4 seconds consecutively

One 250 ml spray bottle can easy to use and store

The above mentioned typical data are approximate values based on current production and can be subject of allowable production tolerances
